THIRTY THOUSAND PRESENT.

That the attendance would have been at the Agricultural Society's Exhibition yesterday and that the remainder fine is of course impossible to say, that it would have been enormous may be inferred from the fact that notwithstanding there was a shortage of water, and that the people were so numerous that the receipts reached \$17,700. The fair was \$10,000, but had the fair weather continued on the present occasion that record would certainly have been broken. The Kismet interest was the variety in the afternoon, especially the latter. The high jump was quite a strong field of competitors, and it was until left. Sin, was regulated that was decided, and when being won, owned by John G. Garman and ridden by Mahon. Another interesting competition was for quarter horses over hurdles, and finally the race decided to drive. The winners were Miss Minnie Baker and Mrs. G. M. N. The Palms Gentlemen's Hunting Course for 400 worth of live stock offered, the first round three horses absolutely refused to jump the water jump, while some of the others went through the live stock offered, a section, dismounted his rider, but no injury was sustained. For the second round, Sam, Shamrock, Toledo, Damon, Gammon, Marco, Tupper, Cleber, and Thunderbolt were left. Finally Cleber, Shamrock, Toledo, Damon, Gammon, Cleber, secured the first prize, but to surprise the crowd, Sam and Shamrock had to be sent round with the race. The second prize was awarded to the former. The incidental music again supplied by Mr. L. de Groen's band of 30 musicians. In view of the fact that the day was a continental concert, that was to have been held last night was postponed till to-night. To-day the program consisted of a fine program, and it was an interesting event. The umpire are to be Messrs. W. Forester and Varney Parks.

FURTHER AWARDS.

April 11.

Sir H. H. Kitchener has received telegraphic messages from her Majesty the Queen, Lord Salisbury, the Emperor William, and the Khedive of Egypt, congratulating him upon his decisive victory achieved by the forces under his command. The Queen said she was greatly rejoiced at the brilliant victory.

The troops cheered the reading of the messages, and great enthusiasm prevailed. A thanksgiving service for the victory was held on Sunday.

Mahmoud, the Dervish general, who was captured, assumed a haughty and sullen attitude when brought before Sir H. H. Kitchener. He replied to the British in the following terms:—"I have to do what I am told, and so have you."

The British and Egyptian troops will return to quarters. The wounded were sent to the hospital at Gennanetta. Piper Stewart, of the Cameron Highlanders, was killed on his way to the ambulance, his body being pierced by seven bullets.

The British Brigade was 28 hours on the march.

Many of the fugitive Dervishes have surrendered to the British.

AMERICA AND SPAIN.

ARMISTICE TO THE CUBANS.

THE SPANISH CABINET UNANIMOUS.

THE ARMISTICE DERIVED BY THE INSURGENTS.

LONDON, April 10.

Mr. E. J. Phelps, formerly United States Minister to England, says that the rebellion in Cuba had been ended long ago had not America supported the insurgents. He expresses the opinion that if by the annexation of Cuba America replaces Spain deplorable political consequences must ensue.

The Americans appreciate the fact displayed by Sir Julian Pannocette, the British Minister at Washington, in drafting the note of the European Ambassadors at Washington, the terms of which President McKinley, while not offending American susceptibilities.

The United States Navy is exhibiting extreme impatience in consequence of the Maine affair not having been avenged.

The United States authorities are providing much free transport to enable American citizens of Havana to proceed to Florida.

April 11.

The anti-dynastic party in Madrid is promoting discontent among the populace. The Governor of Madrid, Senor Aguilera, has prohibited the holding of all meetings.

Lieutenant-General Corrales, the Minister for War, and Admiral Bermejo, Minister for Marine, at first strenuously opposed the granting of an armistice to the rebels in Cuba, and complained that such a course would mean the disengagement of the Spanish arms. The Russian Ambassador in Madrid, M. Schewich, replied that the value of the Spanish troops was beyond all dispute. The Spanish Cabinet was finally unanimous in agreeing to the armistice.

Mr. G. W. Smalley, the New York correspondent of the "Times," says that General Woodford, the United States Minister in Madrid, still believes that peace will be maintained.

President McKinley's personal friends state that the President will not delay the presentation of his message on account of the armistice, and that the policy of intervention on the part of the United States is in no way altered.

The Cuban Junta (the revolutionary Government) desires the armistice. President McKinley's view with regard to the situation is still really a secret.

The "Jingo" members of Congress desire the independence of Cuba. A powerful party, however, objects to independence on the ground that it would be the means of creating a second Hayti.

The "Times" states that General Blanco, the Spanish Commander-in-Chief in Cuba, has been instructed that the length of the truce rests at his discretion. Two thousand American residents of Cuba have left for Key West, midway between Cuba and the coast of Florida.

The American squadron left Key West at full speed. The American press is not satisfied with the armistice, and favours the independence of Cuba.

The Spaniards in Chili have subscribed £1,000,000, to equip a privateer.

Stokes maintained his lead for a long time, but Holmsten kept close to him, and the two were very nearly beaten a second time discomfited of a grand tangle took place between the above couple for the lead. Finally Robinson got the advantage and led to the finish, where he was ahead of Stokes by 40 yards.

INSTRUCTION FOR THE ELECTORS OF
 THE FEDERATION BILL.

TO THE EDITOR OF THE HERALD.
 Sir—It is understood that the work of making the
 design approved, with both the strength and

were under the control Messrs. Robert Koenig, W. Bishop, and W. Carroll, and the races in many cases were controlled by the same persons. The following were the regular members, including members of the Life Saving Society, and a pleasant half-hour was spent on the water. The following were the winners:

Varsity sprint Race—P. Murphy, J. R. Davis, A. very close exit, and only won by a neck. Time, 32 seconds.

Varsity Handicap—D. Boyd, E. Hughes, T. O'Connell, J. R. Davis, and J. H. Bishop.

We are informed that the bill will be introduced as quickly as it comes from the printer. I trust this will not be long.

I propose that the Government give first priority to the bill. The result in this most momentous question should not depend on the power which is not available to us. I am sure that the public opinion addressing the comparatively small proportion of the electors who will gather to hear. Nor even in the

EASTER SERVICES.

Church of Our Lady of the Sacred Heart, Radwick.—The eucharistic communion on Holy Saturday, April 22nd, at 7.30 p.m. The hymn, "The Lord is Risen," was sung by the choir. The 9th lesson, a psalm for which was Mozart's No. 2, "In God Sunday Father" (sacred communion) to High Mass, with Father Frank as deacon and Father Thomas as reader. The choir's Cecilia Mass being finely rendered, with Mrs. Packham and

Deans, J. Hank, J. Green, and J. Brown, Jr. must educate our master."

My proposition, then, is that, in addition to the present members of the German Association, the German Association should undertake to recruit from any fairly representative section of the community the necessary number of members to make up the complement of each section for or against the proposition.

It is not a matter of race, but of the fact that private concerns, no man should be expected to bear the expense; the Government to do all the recruiting and circulating; and the community to be responsible for the expense would be completely

manus service, which earned out \$100,000 for the direction of Mr. S. C. Jeffcott, the music chosen being Haydn's No. 16, which was rendered by the orchestra, and the vocal solo by the soprano in the best of the choir, which was distinguished by the fact that it was the "frank" voice of action desired.

It can hardly be held that personal approval or disapproval of the speakers are the right kind of conviction to bear. Such a treatment of a subject was undesirable by the speakers of Monday week has little to do with the known quality of the speaker. The personal personality is such that he could have saved the

Darlington, on Easter—Today, all of which were very largely attended. The preacher was the Rev. Mr. Cooke. His subject was "The Resurrection." He spoke as at Easter offering a beautifully finished double sermon.

Sr Barnabas, George-street West.—On Easter Day 1876, the following persons were present:—Mr. Cooke, the number of communicants being thirty Communion.—Morning and afternoon, the Rev. W. Martin, evangelist, the Rev. N. Jones, of Morristown, and Mr. Little, of New York City, assisted.

The various sessions would act through committees more or less, and the appointed General Convention will have the opportunity of appointing one representative, who might have authority to advise a reasonable reason if no longer desired.

away my Lord" and "The Hallelujah Chorus." During the day special collections were taken, and the writing of the overture to the Mass which represented the church, died, and owing to the great liberality of the people the offerings for the day amounted to \$1,000.00. The church is a large amount of self-denial, as the worshippers at the church are almost entirely of the working class. It is well worth noting that the children's offerings for the week amounted to \$15.
